Greg Mroz

Shop Foreman

gmroz@northwestfreightliner.com

Meet Greg, a cornerstone of the Northwest Freightliner team since 1999.

He began his journey with us as a Diesel Mechanic, bringing with him three years of valuable experience as a military mechanic.

Through hard work, dedication, and a deep passion for the trade, Greg rose through the ranks to become our Shop Foreman in 2015 — a role he continues to excel in today.

Greg is known for going above and beyond to keep our customers' trucks on the road, often putting in countless hours to ensure the job gets done right.

When he's not leading the shop or turning wrenches, Greg enjoys well-earned downtime with his family, making the most of his time at home.

We're proud to have Greg on our team — his expertise and commitment truly drive our success.
